

Cutes

'Hey there **Cutes**, put on your dancin' boots, and *come dance with me.*'

-Frank Sinatra, 1959

This little lady will dance her way into your heart. Like the song after which she was named, 'Cutes' is classic, too. She's just looking for a special person with whom she can share her life.

It's said, "age is just a number". This fabulous feline is a testament to that! She loves to explore, and is very engaged with her new surroundings.

At 20 years old, this sweet girl finds herself in need of a new dance partner. Her 'cat daddy' could no longer care for her. Sad story, but we won't focus on that. Instead, we are hoping... "*The Best Is Yet To Come*". 🎵

Cutes' Favorite Things:

(in addition to 'whiskers on kittens')

- ♦ Rubbing my face on a catnip filled carrot
- ♦ Afternoon naps in my cozy gray bed
- ♦ My fuzzy pink mouse to bat around
- ♦ Looking out the window
- ♦ Gentle brushing and soft ear rubs

A note from her current foster mom:

Senior pets have so much to offer! I wasn't sure what to expect when I took Cutes into my home. She has been a complete joy and delight and a reminder to me that although life is full of unexpected events, it's our response that counts. A lyric from the song 'Memory' is so fitting for this green eyed gal – "If you touch me, you'll understand what happiness is. "

After a recent visit to the Vet, Cutes was determined to be in overall good health. She does have arthritis and is receiving co-sequin for cats with her wet food. She has a great appetite and excellent litter box habits. Her long hair requires a bit of attention. She does not have front claws but does like her floor scratching pad.
