

# Foster

## What is Home To Home™

Home To Home™ is an interactive platform created to help families, people, and pets with the difficult task of transitioning their pets from one home to another. Often pets are taken to shelters when keeping a pet is no longer possible, even when a pet parent needs a temporary home for their pets. Home To Home™ believes that pets should avoid a stay in an animal shelter and should instead be welcomed into loving homes.

## How It Works

The Home To Home™ platform was built with rehoming, adoption, and fostering components wrapped in an easy-to-use online administration system. Access to reporting, a database of registrants, and messaging capabilities allow our system to be quickly implemented and used effectively to create positive outcomes that include temporary fostering and adoption.

## Fostering with Home To Home™

Home To Home™ can help you increase the success of your shelter's foster program in the following ways:

- **Post Foster Pets Online** - Home To Home™ provides a platform for your shelter or rescue fosters to post their foster pets to your shelter's Home To Home™ profile.
- **List Important Details** - Fosters can write an informative bio on an animal's personality and behavior in a home environment, instead of the often stressful shelter environment.
- **Approve, Deny, and Edit** - Your chosen administrator is able to edit/view the pet profile before it goes live. You can add any adoption or service details to the pet profile at any time.
- **Community Engagement** - Peer-To-Peer Fostering allows community members who seek a temporary home for their pets, to post their needs, informing other community members who can foster their pets their need for help.
- **Emergency and Disaster Management** - Your Home To Home™ profile can help keep pets in homes and out of the shelter during an emergency or disaster by using the fostering module.

## Our Reach

Our organization works with shelters throughout North America to reduce owner surrender intake, decrease shelter euthanasia, improve rehoming in their community, and provide a platform that helps shelters be more engaged with their community.

Home To Home™ helps rehome and foster thousands of animals a month. Our partners include Maddie's Fund, the ASPCA, Fear Free, HAAS, Bissell Foundation, and the Lazin Foundation.
