Behavior & Training

K9 Youth Program

From 2015 to present day:

- 74 animal health clinics
- 5,000 animals seen in our programs
- 2,000 spay/neuter surgeries
- 4,000 vaccines
- 2,200 microchips
- 37 tons of pet food
- 2,100 flea and tick treatments

Also offered at every clinic:

- 4DX testing and treatment (if disease is found)
- Emergency medical treatment
- Nail trimming
- Valley Fever testing and treatment
- Pet supplies / Pet food
- Pet behavior consulting and training
- Professional grooming
- Deworming
- TNR and more

Covid 19 Relief Programs

COVID 19 Relief

We saw a notable increase in requests for assistance during the 24 months of lockdown due to Covid-19. Access to care had been extremely challenging in an already challenging demographic. Our goal was to provide a seamless experience for Community members and we quickly evolved our infrastructure to meet SRPMIC needs, while remaining safe and carefully following all COVID-19 guidelines.

- Built a telehealth program for when people couldn't leave the house
- Partnered with Midwestern University to host a free clinic for NAGI Foundation patients for spay/neuter, wellness, and treatment for illness and minor injuries.
- Altered Tails partnership, expanding low cost spay/neuter availability
- Partnered with 4 local hospitals expanding resources to treat complicated or urgent medical needs
- Negotiated discounted / low cost prices for vet care exclusively for SRPMIC members

Through these efforts in 2020 through 2021, we have provided:

- 166 Spay/Neuter surgeries
- 222 Wellness Appointments
- 55 Urgent/emergency care
- 151 Sick/injured care

In addition to medical care, we also provide access to critical supplies such as pet food. In 2020 we distributed close to **300,000 lbs of dog and cat food** to SRPMIC families and other Native Communities.

Conceptual Site Plan

Equine Programs

The need

- Increased opportunities for Community members to access innovative behavioral health therapies to aid in their healing and recovery.
- Additional options for placement of the 10-15 horses per year that are displaced in the Community due to abandonment or neglect.

A Solution

- SRPMIC Animal Welfare and Enrichment Center is partnered with current equine programs and Community behavioral health services to develop and implement equine therapy programs.
- Centralized location for housing horses that are available for adoption.

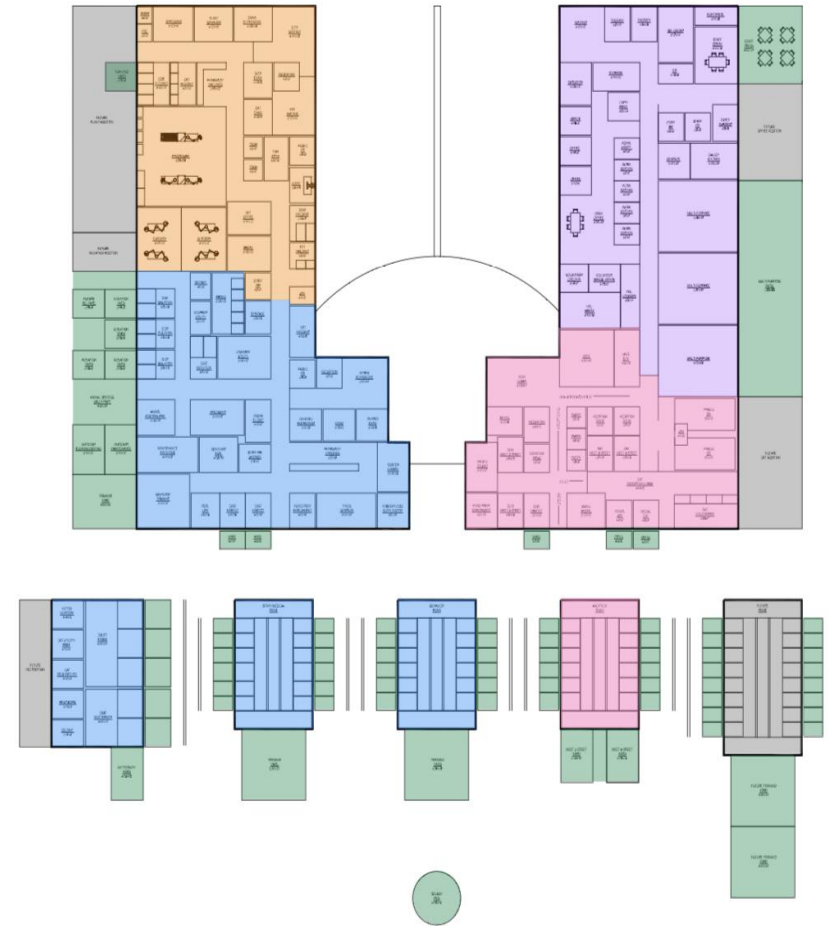

Equine Therapy

Ways This Facility Will Support the Community

- Address short-term and long-term animal shelter needs in the community;
- Create Opportunities to Increase Community Connections and Engagement;
- Increased Community Safety by implementing Programs to address Vicious dogs;
- Enhance Animal Health and Disease Control Methods currently in use;
- Management of Animals Being Held due to Court Matters or Other Law Enforcement Investigations;
- Provide for Consistent implementation of Vaccinations, Licensing and Animal Ownership Tracking, (Through Microchips);
- Opportunities to expand / enhance behavioral health program offerings; and
- Provide low cost community based veterinary services.

And the list goes on...

community
impact

Vision and Impact
