# Engaging With Our Community

- Bilingual posts/lives/documents etc.
- RIP DOWN the ivory tower (stop “educating” and start listening)
- Offer solutions (low-cost vaccines, spay/neuter, etc).
- Offer resources (crates, bottles, formula, blankets, food)
- “Escalation of services/resources” (Diversion)
- Welcome the difficult conversations as opportunities for connection.
- Take ownership and exploit every opportunity for positive change (COVID)
- Make them say it. (barriers to lifesaving change)
- Transparency

## Create a Culture of Lifesaving

- Public Group for community to reunite families and rehome pets.
- Community participates in lifesaving without having to directly involve shelter.
- Within 6 days of creation of group, over 1.5K members joined.
