GoodPup is the nation's leading dog training over live video chat service, on a mission to support post-placement training and intake diversion efforts by connecting Adopters and Fosters with the best trainers across the country. “ We adopted an 8 year-old Shih Tzu at the beginning of the pandemic. Found this app about 8 weeks ago and the program and app interface are great. Alise, our trainer, is so sweet and helpful and I have seen Riley grow not only in skills but general good behavior and increased bonding with me in our time working together.
